By Your Side provides an elevated level of care and comfort to the patient and their family. To provide this level of presence is to give the final honor to a dying patient and it confirms one of our most deeply held beliefs—each of our patients can live until their last breath.

Please join us for the opportunity to meet fellow By Your Side volunteers, learn what is new, ask questions, and share your experiences. We hope that you will leave feeling connected, as well as a little stronger than when you arrived.

Class sizes are limited; RSVP is required
