

ALS – Amyotrophic Lateral Sclerosis

**Monday, February 18, 2019
10:00 a.m. – 11:30 a.m.
Hospice of Medina County
Community Room
5075 Windfall Rd.
Medina, OH 44256**

"I have moments where I miss my old self. But I think anyone can get caught up in what we used to have. But at the same time, we can choose to focus on the beauty of now."

- Steve Gleason, former NFL player, ALS patient

ALS is a progressive neurodegenerative disease that affects a patient's ability to speak, eat, move and breathe. Currently, there is no cure or treatment and our focus remains on providing comfort care for the patient while helping them to experience the best quality of life possible. Your help is needed in making a difference in an ALS patient's life. Please join us to see how you can assist and support this unique population by learning more about ALS and become aware of the realities that ALS patients and caregivers face.

*Class size is limited and RSVP is required
