Step 2: Join the Serious Illness Community of Practice

Ariadne Labs Community

Ariadne Labs focuses on the health dynamics of complex, chronic, serious illness care. Our mission is to create scalable healthcare solutions that improve the well-being of people worldwide. Our vision is to enable healthcare systems to organize, fit, and work to support people's health and well-being. Our aim is to leverage existing healthcare systems to improve the way people live their lives, and our commitment is to support healthcare professionals and organizations in achieving this goal.

Step 2: Join the Serious Illness Community of Practice

Serious Illness Care

The Serious Illness Care Program (SICP) is a system to ensure appropriate communication with seriously ill patients based on proven palliative care best practices. The SICP provides a method to facilitate communication between healthcare providers and patients, and to document the care plan. It also provides tools for evaluating care plans and documenting patient outcomes.

BeltinCare

The BeltinCare Community of Practice is a private space for collaboration between interdisciplinary teams implementing the Serious Illness Care Program at their institutions. This virtual community provides implementation support through peer mentoring, sharing of experiences and lessons learned, downloadable materials, videos, and webinars.

Private Community
