

#### IPU visitation policy

This visitation policy has been established to protect our patients, staff and visitors. This policy is in effect regardless of COVID-19 vaccination status.

- Visitors are permitted to visit **24/7**. Upon entrance into the building, we ask that you please provide the patient's name to gain admittance.
- Minors must be accompanied by an adult throughout their visit.
- **All visitors ≥ 2 years of age must continuously wear masks while in the facility including the patient's room.** Masks must be maintained until the patient is discharged. Surgical/procedure or cloth masks are acceptable. Visitors will be asked to bring masks. If a visitor does not have access to a mask, one will be provided.
- Visitors for patients with COVID-19 do so at their own risk. They will be provided a mask that must be worn for the duration of time they are inside the facility. Visitors for Covid+ patients must remain in the patient's room unless instructed otherwise. Access to public restrooms (if patient restroom cannot be used), vending machines and coffee machine is permitted.
- Visitors must use hand sanitizer prior to proceeding to the patient's room and each time they enter and exit the patient's room.
- Pet visitation is permitted. The facility's pet policy must be followed at all times.
- Visitors may not enter or exit through patient room doors or any other exterior door. They must enter and exit through the main entrance only.

**This policy is subject to change at any time based on factors such as, but not limited to, COVID-19 community spread, incidence and infection rates.**

**Patients whose visitors do not comply with this policy will not be permitted further in-person or window visits. If necessary, security will be called to enforce this policy and/or remove visitors from the facility.**

Please help us follow COVID-19 precautions for the safety of your loved one, family and our staff.
